PORTFOLIO WEBSITE (INDIVIDUAL) 2025 MARCH

Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, technical skills, and academic experience. Designed a fully responsive and user-friendly interface with modern UI components, ensuring compatibility across multiple devices and screen sizes. Implemented project preview sections, summary pages, and structured navigation to enhance usability and presentation. The website serves as a professional digital platform to highlight my development capabilities and personal brand.

AI-Powered Legal Tech Platform (INDIVIDUAL) 2026 MAR

Developed a full-stack AI-powered legal tech platform that enables intelligent legal document analysis using Retrieval-Augmented Generation (RAG) and Large Language Models (LLMs). Led the frontend development using React and designed a complete, responsive UI/UX in Figma, ensuring smooth user interactions across dashboards and admin panels. Collaborated with the backend team to integrate advanced AI features, delivering a scalable and user-focused system.
